

## DEPARTMENT HISTORY

# 1983

Department of Civil Engineering founded

# 1993

Department of Environmental Engineering founded

Starting in the late 1960s as programs in civil and environmental engineering, the department has a long history of offering a rich and diverse educational experience to students. Courses are taught by world-class scholars who maintain connections with industry and are involved in developing innovative technologies in earthquake and structural engineering, transportation systems, water resources and environmental engineering. The department is dedicated to providing life-long development, instilling a sense of professional responsibility and serving society.

## STUDENT POPULATION

# 488

Undergraduate Students (Fall 2020)

### B.S. degrees

- Civil Engineering
- Environmental Engineering

# 136

Graduate Students (Fall 2020)

### M.S. and Ph.D. degrees

- Civil Engineering
- Environmental Engineering

## RESEARCH & EXPENDITURES

# \$11.5M

2020-21 Research Expenditures

## 4 Research Thrusts

- Environment and Energy
- Structures and Materials
- Transportation
- Water

## 4 World-class Center Affiliations

- Advanced Power and Energy Program
- Center for Hydrometeorology and Remote Sensing
- Institute of Transportation Studies
- UCI WEX Center

## FACULTY & RECOGNITION

# 26

 Full-time Faculty

# 7

 Affiliated Faculty

# 3

 NAE Members

# 4

 NSF CAREER Awards

# 3

 Distinguished Professors

# 1

 Endowed Chair
