PREPARING FOR INTERNSHIP & RESEARCH EXPERIENCES THAT SHAPE LIVES

Join us to hear three amazing narratives from diverse presenters whose insights will set you on productive courses in internships and research in the sciences and engineering. Engage with our broader group of panelists representing a treasury of resources for undergraduates majoring in science, technology, engineering and mathematics.

Presenters

- Sara Sameni**, Ph.D. Student in Biomedical Engineering, DECADE Mentor, and NSF IGERT Fellow
Michael Montoya, Associate Professor in the UCI School of Social Sciences, the Program in Public Health, and the Sue and Bill Gross School of Nursing
Robert Edwards, Director of Software Development and System Architect, Glidewell Laboratories

Additional Panelists

- Michelle Foley**, Internship Coordinator, UCI Career Center
Steven Kimoto, UCI Alumnus and Talent Acquisition Partner, Glidewell Laboratories
Said Shokair, Director, Undergraduate Research Opportunities Program

Sponsored by UCI Office of Inclusive Excellence and Calit2
